Secretary, JIGSAW Committee

Project Card File

1. It may be advisable to report to the next JIGSAW Committee meeting about the organization of the Project Card File if an agreement could be reached with OCD, as you suggested. In this event, the matter may be taken up as a point of the Agenda.

2. Your direction is kindly requested as to whether or not IPs may be listed in the Project Card File. With increasing requirements from OPC, this question may have to be decided as a matter of policy, inasmuch as IPs are internal CIA papers and the contributing divisions of ORE feel that they might conceivably not be subject to reporting to an interdepartmental file.
